

# ISA Server 2004

Microsoft Internet Security and Acceleration (ISA) Server 2004

Course:ET114

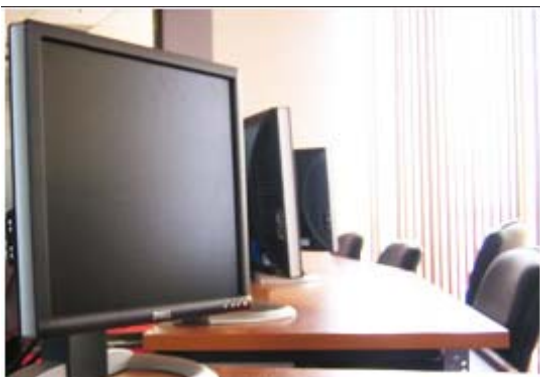

## Course Description

## Course Level

## Who should attend?

## Pre-requisites

## Course Objectives

## Course Outline

### Course Outline

#### Course Outline

##### Day 1

Module 1: Overview of Microsoft ISA Server 2004

- Introducing Microsoft ISA Server 2004
- Deployment Scenarios for ISA Server 2004

Module 2: Installing ISA Server 2004

- System and Hardware Requirements for ISA Server 2004
- Installation Types and Components
- Configuration Choices during Installation
- How to Perform an Unattended Installation of ISA Server 2004
- How to Verify an Installation of ISA Server 2004
- Default Configuration for ISA Server 2004
- How to Modify the ISA Server Installation

Module 3: Securing and Maintaining ISA Server 2004

- Securing ISA Server 2004
- Maintaining ISA Server 2004

##### Day 2

Module 5: Enabling Access to Internet Resources

- ISA Server 2004 as a Proxy Server
- Configuring Multi-Networking on ISA Server
- Configuring Access Rule Elements
- Configuring Access Rules for Internet Access

Module 6: Implementing Caching

- Caching Overview
- Configuring General Cache Properties
- Configuring Cache Rules
- Configuring Content Download Jobs

Module 7: Configuring ISA Server as a Firewall

- Using ISA Server as a Firewall
- Examining Perimeter Networks and Templates
- Configuring System Policies
- Configuring Intrusion Detection and IP Preferences

##### Day 3

Module 8: Configuring Access to Internal Resources

- Introduction to Publishing
- Configuring Web Publishing
- Configuring Secure Web Publishing
- Configuring Server Publishing

Module 9: Configuring Virtual Private Network Access for Remote Clients and Networks

- Virtual Private Networking Overview
- Configuring Virtual Private Networking for Remote Sites
- Configuring VPN Quarantine Control Using ISA Server 2004

Module 10: Monitoring ISA Server 2004

- Monitoring Overview
- Configuring Alerts
- Configuring Session Monitoring
- Configuring Logging
- Configuring Reports
- Monitoring Connectivity
- Monitoring Services and Performance
